**EDUARDO BLANES** (13:00h)  
**PABLO OLALQUIAGA** (13:30h)  
**EUSEBIO ALONSO** (14:00h)

The IU International Ceramics and Architecture Congress will take place at the ETS of Architecture Madrid on 13th and 14th April 2015.

The theme chosen for this Third Congress is “Ceramics and air”, a title that should be regarded as a suggestion, but one which does not rule out proposals from other fields related to non-structural ceramics.

On the one hand, the ambition of this congress is to situate ceramics in an

architectural context from a historic-artistic perspective: the great masters who have employed ceramic materials, restorations of ceramic buildings, collaboration between architects and ceramists.

On the other hand, its intention is to promulgate the work of contemporary architects who have used ceramics in their works: conceptualization of space, reasons justifying the use of the material, etc.

LIMITED SUSSCRIPTION. Enrollment on [catedra.ceramica.madrid@gmail.com](mailto:catedra.ceramica.madrid@gmail.com)

For UPM students, Certificate. More information, Please contact us using the congress email address
